Malang, 29 November 2024

Lampiran : Satu berkas

Hal : Umpan Balik Rujukan Internal dan SEP Rawat Jalan  
Terbit Anomali Bulan Pelayanan Juli-September 2024

Yth.

Direktur/ Kepala FKRTL Mitra BPJS Kesehatan Kantor Cabang Malang  
di  
Malang Raya

Pertama-tama kami manajemen BPJS Kesehatan Cabang Malang menyampaikan terimakasih atas dukungannya terhadap program Jaminan Kesehatan Nasional (JKN) yang dikelola oleh BPJS Kesehatan.

Menindaklanjuti hasil monitoring data rujukan dan SEP terbit bulan pelayanan Juli-September 2024, bersama ini disampaikan beberapa hal sebagai berikut:

### 1. Rujukan Internal

Berikut Top 10 FKRTL dengan jumlah kasus rujukan internal terbanyak bulan pelayanan Juli-September 2024:

| No | FKRTL                         | Jumlah Kasus |
|----|-------------------------------|--------------|
| 1  | RSU. UNIVERSITAS MUHAMMADIYAH | 1.502        |
| 2  | RSI AISIYIAH MALANG           | 1.362        |
| 3  | RSUD LAWANG                   | 487          |
| 4  | RS PRASETYA HUSADA            | 414          |
| 5  | RS MARSUDI WALUYO             | 389          |
| 6  | RSU HERMINA TANGKUBANPRAHU    | 354          |
| 7  | RS SOEPRAOEN                  | 291          |
| 8  | RS. BAPTIS BATU               | 261          |
| 9  | RS PERSADA HOSPITAL           | 187          |
| 10 | RS WAVA HUSADA                | 186          |

FKRTL dengan jumlah rujukan internal terbanyak adalah RSU Universitas Muhammadiyah Malang, RSI Aisyiyah dan RSUD Lawang. Data tersebut merupakan jumlah rujukan internal ke poli lain dengan diagnosa lain, dengan mengecualikan rujukan internal tujuan kontrol ulang ke poli yang sama.

Sedangkan Top 15 Poli tujuan rujukan terbanyak sebagai berikut:

| No | Poli                        | Jumlah Kasus |
|----|-----------------------------|--------------|
| 1  | PENYAKIT DALAM              | 1.925        |
| 2  | MATA                        | 974          |
| 3  | KULIT KELAMIN               | 836          |
| 4  | REHABILITASI MEDIK          | 725          |
| 5  | PARU                        | 538          |
| 6  | SARAF                       | 450          |
| 7  | THT-KL                      | 298          |
| 8  | BEDAH                       | 282          |
| 9  | JANTUNG DAN PEMBULUH DARAH  | 260          |
| 10 | HEMATOLOGI - ONKOLOGI MEDIK | 172          |
| 11 | UROLOGI                     | 110          |
| 12 | ORTHOPEDI                   | 79           |
| 13 | ANAK                        | 63           |
| 14 | OBGYN                       | 63           |
| 15 | ENDOKRIN-METABOLIK-DIABETES | 44           |

Dokumen ini telah ditandatangani secara elektronik menggunakan sertifikat elektronik yang diterbitkan oleh BSR E

Poli tujuan rujukan internal terbanyak adalah poli penyakit dalam, poli mata dan poli kulit kelamin.

Selanjutnya apabila dilihat dari data diagnosa peserta yang diterbitkan rujukan internal, masih terdapat diagnosa nonspesialistik yang seharusnya dapat diberikan pelayanan tuntas di FKTP. Berikut merupakan daftar diagnosa nonspesialistik terbanyak yang diterbitkan rujukan internal:

| No | Diagnosa                                                                                                    | Jumlah Kasus |
|----|-------------------------------------------------------------------------------------------------------------|--------------|
| 1  | E119 - Non-insulin-dependent diabetes mellitus without complications                                        | 183          |
| 2  | B86 - Scabies                                                                                               | 112          |
| 3  | J459 - Asthma, unspecified                                                                                  | 117          |
| 4  | I10 - Essential (primary) hypertension                                                                      | 107          |
| 5  | E119 - Non-insulin-dependent diabetes mellitus without complications;I10 - Essential (primary) hypertension | 99           |
| 6  | K30 - Dyspepsia                                                                                             | 91           |
| 7  | H041 - Other disorders of lacrimal gland                                                                    | 75           |
| 8  | L239 - Allergic contact dermatitis, unspecified cause                                                       | 73           |
| 9  | G510 - Bell's palsy                                                                                         | 52           |
| 10 | K219 - Gastro-oesophageal reflux disease without oesophagitis                                               | 41           |
| 11 | J189 - Pneumonia, unspecified                                                                               | 36           |
| 12 | L219 - Seborrhoeic dermatitis, unspecified                                                                  | 35           |
| 13 | L209 - Atopic dermatitis, unspecified                                                                       | 34           |
| 14 | L309 - Dermatitis, unspecified                                                                              | 33           |
| 15 | G442 - Tension-type headache                                                                                | 30           |

Diagnosa nonspesialistik terbanyak yang diterbitkan rujukan internal adalah E119 (*Non-insulin-dependent diabetes mellitus without complications*), B86 (*Scabies*) dan J459 (*Asthma, unspecified*).

Peserta dengan diagnosa yang termasuk dalam Program Rujuk Balik (PRB) seperti Diabetes Mellitus, Hipertensi, dan Asthma tanpa komplikasi agar dioptimalkan untuk dirujuk balik.

Diagnosa *Scabies* menjadi urutan kedua diagnosa nonspesialistik terbanyak yang diterbitkan rujukan internal oleh FKRTL. Adapun FKRTL dengan rujukan internal diagnose *Scabies* adalah sebagai berikut:

| No | FKRTL                         | Jumlah Kasus |
|----|-------------------------------|--------------|
| 1  | RSU. UNIVERSITAS MUHAMMADIYAH | 40           |
| 2  | RSUD LAWANG                   | 28           |
| 3  | RSI AISYIAH MALANG            | 26           |
| 4  | RUMAH SAKIT LAVALETTE         | 5            |
| 5  | RS MARSUDI WALUYO             | 4            |
| 6  | RS Mitra Delima               | 2            |
| 7  | RS K Bedah Hasta Husada       | 1            |
| 8  | RS BEN MARI                   | 1            |
| 9  | RSU WAJAK HUSADA              | 1            |
| 10 | RS WAVA HUSADA                | 1            |
| 11 | RS SOEPRAOEN                  | 1            |
| 12 | RSIA PURI BUNDA               | 1            |
| 13 | RSU PINDAD                    | 1            |

Seluruh diagnosa nonspesialistik stabil tanpa penyulit merupakan kompetensi dokter di FKTP sehingga tidak perlu diterbitkan rujukan internal oleh FKRTL.

## 2. SEP Rawat Jalan Terbit Anomali

Terdapat SEP Rawat Jalan yang diterbitkan oleh FKRTL pada jam anomali (23.00-04.59)

Di RS Mitra Delima SEP Rawat Jalan Terbit Anomali terbanyak yaitu pada poli Anak, apabila disandingkan dengan jadwal praktek DPJP di HFIS dapat diketahui bahwa jadwal praktek pada poli tersebut adalah jam 13.00-20.00. Berikut jadwal praktek DPJP Spesialis Anak di HFIS RS Mitra Delima:

| No | Hari           | Jadwal        | Kapasitas Pagi | Kapasitas Sore |
|----|----------------|---------------|----------------|----------------|
| 1. | SENIN          | 13:30 - 16:00 | 5              | 20             |
| 2. | SELASA         | -             | 0              | 0              |
| 3. | RABU           | 17:00 - 19:00 |                | 20             |
| 4. | KAMIS          | -             | 0              | 0              |
| 5. | JUMAT          | 16:30 - 18:00 |                | 15             |
| 6. | SABTU          | -             | 0              | 0              |
| 7. | MINGGU         | -             | 0              | 0              |
| 8. | LIBUR NASIONAL | 18:00 - 20:00 |                | 20             |

Sehingga SEP-SEP yang terbit pada jam 23.00-04.59 menjadi SEP anomali karena terbit di luar jam pelayanan poli FKRTL. Detail SEP disampaikan dalam lampiran surat.

3. Terkait dengan poin-poin di atas, maka:

- a. Rujukan Internal dengan diagnosa nonspesialistik stabil tanpa penyulit merupakan kompetensi dokter di FKTP sehingga klaim menjadi tidak sesuai ketentuan yang seharusnya dapat tuntas di FKTP.
- b. SEP Rawat Jalan Terbit Anomali pada jam 23.00-04.59 yang tidak sesuai ketentuan menjadi klaim tidak layak.
- c. Selanjutnya agar Manajemen FKRTL dapat melakukan evaluasi dan memastikan hal serupa tidak terulang kembali.

Demikian kami sampaikan, atas perhatian dan kerjasama yang baik, diucapkan terimakasih.

Kepala

Roni Kurnia Hadi Permana

Tembusan: Kepala BPJS Kesehatan Kabupaten Malang dan Kota Batu.

AN/de/PK.00
